

Keep your dreams in focus

SimplyFlo stationary oxygen concentrator

1-877-774-9271 | www.oxygenconcentratorstore.com

SimplyFlo—the world's smallest and lightest stationary oxygen concentrator

We know that oxygen therapy can cause lifestyle disruptions. Some stationary concentrators can be big, noisy, and make your life difficult. But with its small size and light weight, SimplyFlo is an option for those who require therapy only at night.

- Lightweight at 8.5 pounds
- Quiet operation
- Uses <math><1/3</math> the electricity of traditional stationary concentrators
- .5 to 2 LPM continuous flow output

Optional travel case available separately.

Oxygen therapy shouldn't stop you from doing what you love.

SimplyFlo is designed to make nighttime oxygen therapy easy

The SimplyFlo stationary oxygen concentrator

- Reduces lifestyle disruptions
- Simplifies transport for travel or within home
- Helps those who need oxygen only at night to stay active during the day

Visit www.oxygenconcentratorstore.com for more information or ask your homecare provider for details.

Is SimplyFlo right for me?

SimplyFlo is intended for prescription use by patients requiring high concentrations of oxygen on a supplemental basis. It is not intended to be life-sustaining or life-supporting. And is not intended for pediatric use. SimplyFlo may not be for all oxygen therapy needs. Talk to your doctor to determine if it is right for you.

Philips Respironics is working in harmony with the care team to produce solutions that can lead to healthier patients.
